Client Profile:

- A business audio advertising and digital media agency based in Australia.

Solution:

- Conducted pre-migration analysis for user account mapping, data storage, and permission and access rights documentation for a seamless migration.
- Created corresponding Google Workspace accounts, conducted batch migration, and validated data accuracy post-migration.
- For SharePoint and OneDrive migrations:
 1. Preserved folder structures
 2. Maintained original file permissions
 3. Converted Microsoft Office files to Google document format
 4. Handled complex sharing configurations

Client Objective:

- Unify all communications under the same G-suite domain after acquisition of 4 firms.
- Error-free domain migration from O365 to G-suite:
 1. Employee e-mail addresses
 2. Contacts
 3. Calendar entries
 4. SharePoint and OneDrive data

Impact:

- Successfully completed 211 account migrations within 18 days.
